

Data Analysis Drives Decision Making

Power private markets portfolio
construction and investment selection

Powered by:  Hamilton Lane®

Why Cobalt?

For limited partners, data and technology are no longer nice-to-haves. They are must-haves. Cobalt LP provides investors with transparent data and real-time analysis.

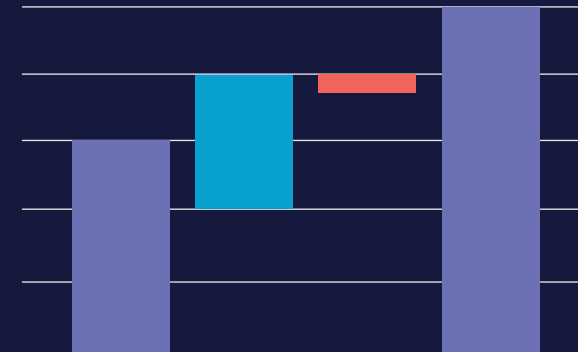

Our clients are analytical decision makers that leverage Cobalt LP to put their data to work.

Diligence

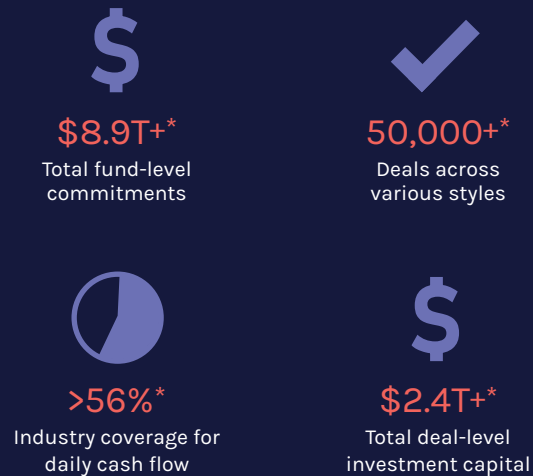

Embrace high-quality investment data and specialized analytics to generate superior insights that inform your investment selection process. Access Hamilton Lane's diligence data sourced by 30+ dedicated professionals (as of 6/30/19) with comprehensive controls and processes in place.

Analyze Track Records

Our Data

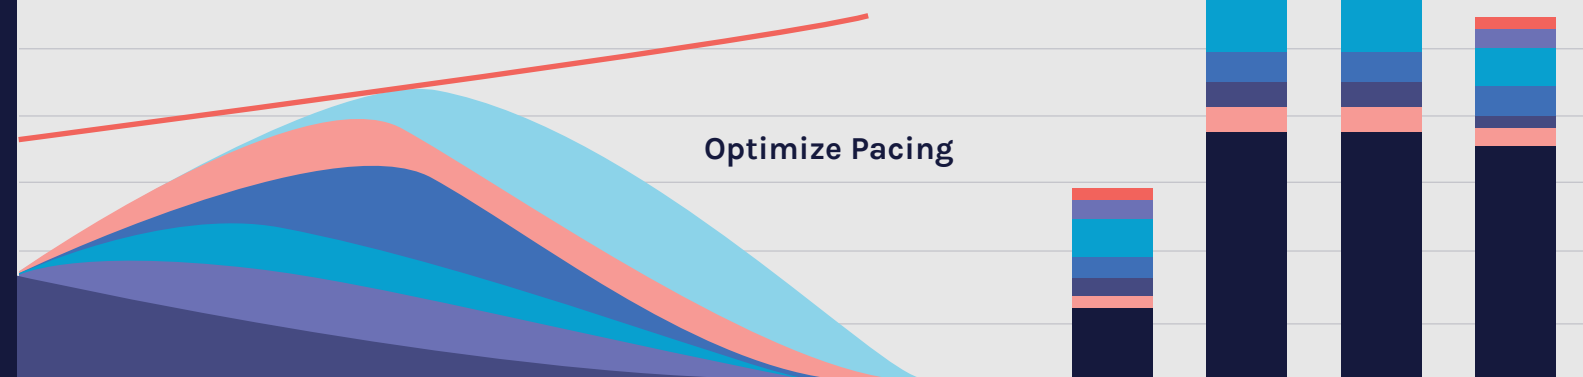

Access aggregate market trends and transparent GP track records across private equity, growth, venture capital, private credit and real assets sub-sectors - all in one platform. Our data is quality, timely and unbiased.

*As of 3/31/2019

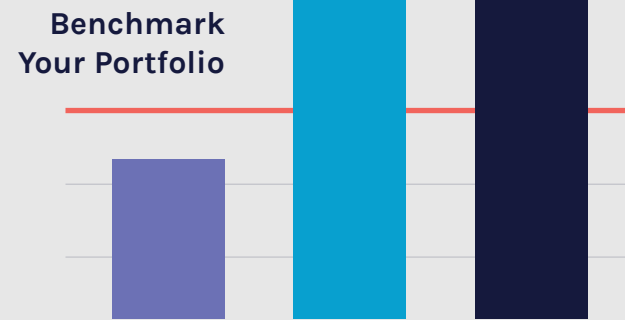

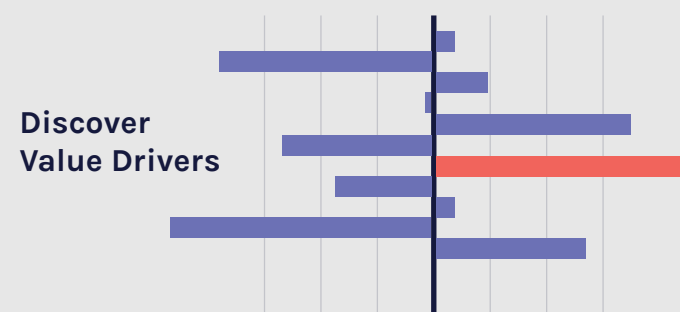

Portfolio Planning

Forecast future cash flows and solve for commitment plans using Hamilton Lane's proprietary Horizon Model.

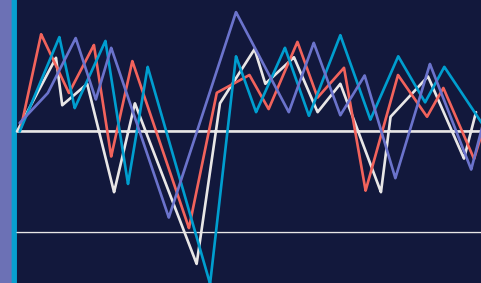

Real-Time Portfolio Analysis

No matter the size or complexity of your portfolio, Cobalt can deliver answers when you need them - on demand.

Market Insights

Market Research

Real time benchmarks and performance data sourced directly from LP portfolios. Leverage market data to create dynamic, customized visualizations utilizing one click reporting and interactive dashboards.
